**Release Plan; Receipt Mobile App; Team Awesome Receipt App; V0.5, 4/8/24,
Rev#5; 6/4/24**

High Level Goals:

A description of the top-level goals for the release. Examples include, for a game: "Be able to play one complete level (but with limitations xx, yy, & zz)," "Have all controller capabilities implemented," "Be able to create levels using a level design tool;" or for the Osric system: "Be able to handle service requests for new and existing customers with access to requests by managers and technicians." These high-level goals may map to a single user story, but more typically will map to multiple user stories.

Have a user take a picture of a receipt and receive the amount split accordingly.

User stories defining the scope of the release:

As a user, I want to be able to take a picture of a receipt and have the text recognized" [8]

"As a user, I want to have an interface for using the app" [21]

"As a user, I want to be able to select a picture of a receipt on my phone and have the text recognized" [13]

"As a User, I want the application to process pictures quickly" [8]

"As a user, I want the app to recognize receipts from different stores"[21]

"As a user, I want to assign different people lines on a receipt."[13]

"As a user, I want to be able to have high accuracy when scanning receipts[21]"

"As a user, I want to create and save people's names for assigning receipt costs"[13]

"As a user, I want to be able to scan McDonald's receipts [13]

"As a user, I want my groups to be saved for future use" [8]

"As a user, I want to be able to scan any brand's receipt.[21]

"As a user, I want to be able to scan a receipt from Trader Joe's" [13]

"As a user, I want to assign different people lines on a receipt."[13]

"As a user, I to be able to easily assign items to each member for subdivision"
[55]

"As a user, I want the app to tell my team members how much they owe me" [13]

"As a user, I want my final payment to be correct" [5]

Organized User Stories:

- Sprint 1 4/10:

- “As a user, I want to be able to take a picture of a receipt and have the text recognized” [8]
- “As a user, I want to have an interface for using the app” [21]
- “As a user, I want to be able to select a picture of a receipt on my phone and have the text recognized” [13]
- “As a User, I want the application to process pictures quickly” [8]
- Sprint 2 4/24:
 - “As a user, I want the app to recognize receipts from different stores”[21]
 - “As a user, I want to assign different people lines on a receipt.”[13]
 - “As a user, I want to be able to have high accuracy when scanning receipts[21]”
 - “As a user, I want to create and save people's names for assigning receipt costs”[13]
 - “As a User, I want the application to process pictures quickly” [8]
- Sprint 3 5/8:
 - “As a user, I want to be able to scan McDonald’s receipts [13]
 - “As a user, I want my groups to be saved for future use” [8]
 - “As a user, I want to be able to scan any brand’s receipt.[21]
 - “As a user, I want to be able to scan a receipt from Trader Joe’s” [13]
 - “As a user, I want to assign different people lines on a receipt.”[13]
- Sprint 4 5/22:
 - “As a user, I to be able to easily assign items to each member for subdivision” [55]
 - “As a user, I want the app to tell my team members how much they owe me” [13]
 - “As a user, I want my final payment to be correct” [5]

Sanity Check:

Team Capacity: 65
